

MESHTEC KD 100

Meshtec® expanded metal is one of the most versatile products in the Cadisch MDA range, offering durable transparency with high airflow and easy installation. With a wide range of materials and finishes and ongoing R&D, we continue to extend the range of expanded metal mesh products with an ever increasing spectrum of new and innovative wide band products for metal cladding, and lighter meshes for screening and ceilings.

PROPERTIES:

Type:	Meshtec KD 100
Mesh:	6mm (LWM) x 4.5mm (SWM)
Strand:	1.2mm
Material:	Aluminium / Pre Galvanised Mild Steel
Material Thickness:	1mm
Max Sizes:	1000x2000, 1250x2500
Finishes:	Anodised (Aluminium), Powder coated, Specialist PPC
NBS:	N/A
Visual Open Area:	36%
Weight (kg/m ² *):	Aluminium: 1mm: 1.5 Mild Steel: 1mm: 4.15

SUGGESTED APPLICATIONS:
